

Home Economics

Home Economics

Home Economics is a subject offering lots more than sewing and cooking!

The Junior Certificate course covers the following topics:

- Food and Nutrition
 - · Practical Cookery
 - · Consumer Studies

- Social and Health Studies
 - · Resource Management and Home Studies
 - · Textile Studies

Students are required as part of the Junior Certificate Home Economics to complete three assessment components:

- Written examination,
 - • A project in the chosen optional study which has a mark allocation of 15%
 - • A practical examination in food and culinary skills which is worth 35% for those taking the subject at the higher level or 45% for those choosing the ordinary level.
