

Message from School Principal

I wish to assure our students and parents of Loreto Swords of the continued support of the school in maintaining continuity of teaching and learning and engagement with your daughters. This is a vitally important time for all to remain connected with their school and their teachers.

I would like to acknowledge all of the work of the students and staff in our school for dealing with the unique and challenging circumstances we are presented with at this time in such a positive and productive manner.

In light of the revised schedule that has been announced, I would ask that your daughter gets some rest and looks after her mental and physical health this week, so that she can return refreshed and renewed to the learning process.

I will continue to update you on further details related to the DES announcement as information comes to hand.

Once again our thoughts and prayers are with those in our school community who are dealing directly with Covid 19. We think of those who are suffering loss of Loved Ones and those who are very ill as well as remembering those on our Frontline who are caring for all.

Kind regards and keep yourselves and your family safe

Mr Macnamara
